

Sciaire Pro H100/H110 Air Ion Generator

Sciaire Pro H100/H110 is a carbon fiber brush output ionizer that produces positive and negative ions. This unit is highly versatile, as it may be installed in an air handling unit, fan coil unit, PTAC, heat pump and even a ductless split system. The ion generator is self-contained in a potted enclosure which has molded flanges with mounting holes. It accepts 12-24V DC/AC (H100) or 100-240V AC (H110) without the use of an external power supply.
