

Professional Grade Motor Run Capacitors

Professional Grade Motor Run Capacitors

Not all capacitors are built the same. Take it to the PRO level.

A PRO can go the distance.

Our PRO™ runs 83% longer than a standard motor run capacitor.

At 60,000 hours of operational life, Titan Pro™ Professional Grade Motor Run Capacitors get the job done by outperforming standard motor run capacitors of similar value in the toughest conditions.

Check the stats. Choose the PROs.

RELIABLE:

- 60,000 hours operation life

FLEXIBLE:

- Titan PRO™ 440/370 volt design reduces inventory
- Titan PRO™ 370 volt offers best in class value

COMPLIANT:

- Built to the toughest international standards for AC motor run capacitors including EIA-456A and IEC 60252-1:2001.

TESTED:

- 100% electrical testing

REINFORCED:

- Heavy-edge metallized polypropylene film is used for the dielectric
- The dielectric coils are impregnated under vacuum and high temperature with a proprietary bio degradable oil.
- Second generation anti-explosion safety switch

Titan PRO™ Capacitor Product Line Offering:

- Single and Dual Sections
- Round and Oval sizes
- Voltage: 370 or 440/370

Technical Specifications

| | |
|---------------------------------|---|
| Certification | IEC 60252-1:2001 |
| Temperature | - 40° C to +70° C |
| Capacitance Tolerance | ±5% |
| Capacity | Rated 2 MFD to 80+10 MFD |
| IR | ≥3000S |
| Dielectric dissipation factor | $\text{tg}\delta \leq 0.002$ (50Hz~100Hz) |
| APPLICATION REQUIREMENTS | |
| Altitude | ≤2000m |
| Residual voltage while loading | <10% of rated voltage |
| Permissible maximum current | <1.3 times of rated current |

“The product development phase was a very crucial time for us to create a truly professional grade capacitor that has it all – reliability, value, and flexibility. We continue to work closely with our manufacturer to ensure that each capacitor coming off the line is 100% electrically tested.”

*Susan Kirkland, President
Packard Inc.*

A PRO can take the heat.

Our PRO™ is 100% electrically tested to withstand whatever is thrown at it.

Titan PRO™ is built from quality, proprietary materials such as a heavy edge Al/Zn polypropelene film which helps prevent the degrading effects which may otherwise cause premature failure.

We are extremely pleased with the quality and performance of the Titan Pro™ Capacitor. Feedback from our customers has been extraordinarily positive. Since we have stocked Titan Pro™ Capacitors, our return rate has been very low. It is most definitely a solid product that has become a staple in our business.”

*Donny Figueroa, Owner
Refri-Cool Supply*

“Delivering a capacitor that both Packard and our customers can feel good about is important to us. From a performance standpoint, Titan PRO™ packs a huge punch, yet its price point is extremely favorable for our wholesale customers. All-in-all a great value.”

*Dan Lauterhahn, VP of Sales
Packard, Inc.*

Approvals

A PRO is built tough.

Our PRO™ line is built to the toughest international standards for AC motor run capacitors.

Titan PRO™ complies with EIA-456A and IEC 60252-1:2001 for quality and performance.

a solution from

**Packard**

Supplying HVACR solutions, with your needs in mind.

For over 53-years, Packard has been a master distributor of HVACR solutions for manufacturers all over the world. Our extensive history with the strongest domestic suppliers and our vast experience with global sourcing, allows us to bring the most innovative and highest quality products available to our customers. Our brand offering includes top industry names, as well as our own exclusive private-label lines. With corporate headquarters located in Kennesaw, Georgia, Packard has strategic sales offices in New Jersey, Virginia, Florida, Oregon and California and Michigan as well as 39 independent manufacturers' representatives servicing wholesalers across the U.S.

Packard's unyielding dedication to providing the best service, selection and satisfaction will always be our top priority.
