

# LOUVERED CABINET GRILL RXHK-

## ⚠ WARNING

TO ENSURE PROPER INSTALLATION AND OPERATION OF THIS PRODUCT, COMPLETELY READ ALL INSTRUCTIONS PRIOR TO ATTEMPTING TO ASSEMBLE, INSTALL, OPERATE, MAINTAIN OR REPAIR THIS PRODUCT. UPON UNPACKING OF LOUVERED CABINET GRILL, INSPECT ALL PARTS FOR DAMAGE PRIOR TO INSTALLATION AND START UP.

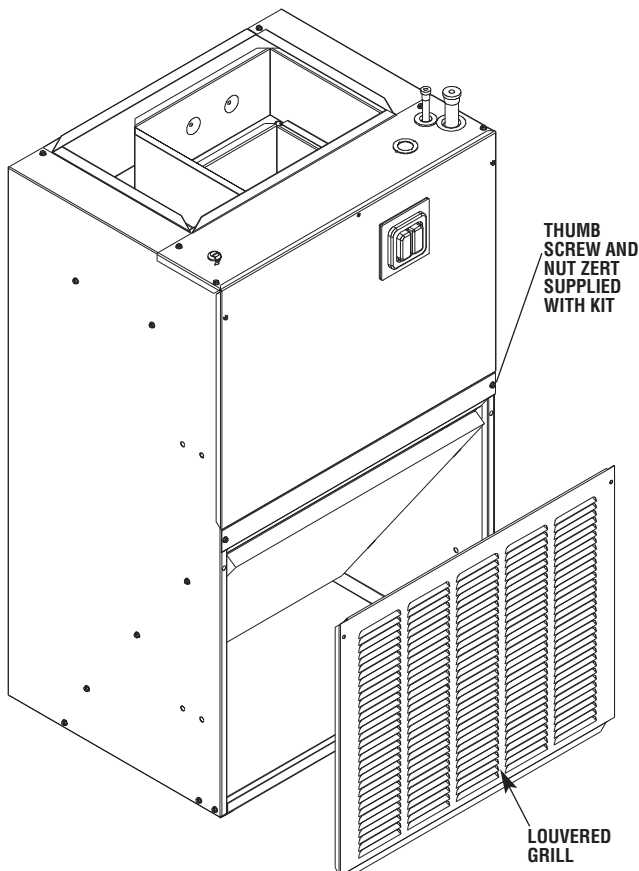

## LOUVERED CABINET GRILL RXHK-

The RXHK Louvered Cabinet Grill is used in applications where the air handler front return opening needs to be covered with a louvered grill. Table 1 illustrates which accessory model goes with each model of air handler and the list of parts that will be required for proper installation:

## INSTALLATION INSTRUCTIONS:

1. Install the #10-24 nut zert by inserting the nut into the hexagonal hole provided on the unit.
2. Place the nut zert installation wrench in front of the nut zert. Make sure that the hexagonal portion on the wrench is engaged with the nut zert. Reference Figure 2.
3. Thread the machine screw provided and tighten until the nut zert is securely fastened into the air handler. Reference Figure 3.
4. Repeat steps 2 and 3 to install the nut zert on the opposite side.

UNIT ASSEMBLY INSTRUCTIONS**

5. Insert the provided thumb screws into the mounting holes on the decorative grill and thread the #10 retaining washer on the insulation side of the decorative grill. This will ensure that the thumb screws will not be lost during the routine maintenance such as filter changes. Reference Figure 4.
6. Install decorative grill and tighten the thumb screws into the nut zerts which were installed in steps 2 and 3.
